

## Creates elegant, rounded outside drywall corners.

- *Electrogalvanized finish for superior compound adhesion.*
- *Galvanized for corrosion protection and durability.*
- *Rugged steel construction.*

*Gypsum board panels must be cut back 3/4" to accommodate the bullnose radius and ensure a flush fit.*

Dietrich bullnose corner bead is used to create a smooth, rounded look to standard drywall corners. Bullnose adds contemporary styling and a sense of openness to any room. Bullnose bead is nailed, screwed or stapled in place and finished with joint compound.

Bullnose is available with a galvanized finish meeting ASTM C 1047 standard or with a prime painted surface for shadow-free finishing.

Dietrich bullnose to 90° transition caps are available to provide a smooth transition to baseboard or corner molding. They install quickly and easily and can be used with metal, vinyl or paper-faced bullnose corner bead.

### Bullnose 90° Corner Bead (CBB)

DMF Product Code	Size				Weight/Carton		Packaging	
	Radius		Length		lbs	kg	Pcs/Box	Cartons/Skid
	Inches	mm	ft-in	m
