

Creates a rounded, paintable finish around door jambs and window trims.

- Durable steel construction.
- Galvanized coating for corrosion protection.
- Cost-effective alternative to expensive wood trims.

Kerfed Bullnose

Dietrich kerfed bullnose has a distinctive shortened back flange allowing for insertion into grooved door jambs and window trims. This feature provides for efficient, clean installation, as well as the smooth round appearance associated with bullnose trims. It is roll-formed from galvanized steel conforming to ASTM A 1047 for protection from corrosion and added durability.

Bullnose Kerfed (CBBK)
