

Used as a finished edge for wallboard at door and window openings or when gypsum panels meet dissimilar surfaces.

- *Requires no joint compound.*
- *Galvanized for corrosion protection.*
- *Hemmed edges for quick installation.*

Dietrich metal J-Trims are strong, reveal-type galvanized steel casings that provide maximum protection and neat finished edges to drywall terminations around door and window openings. Metal J-Trims also deliver a clean trim line at intersections or where gypsum panels abut dissimilar surfaces such as columns and window mullions. Hemmed-edges allow for quick installation and do not require joint compound for finishing.

J-Trim

Metal J-Trim (M400 Series™)
